Mild Steel Gravity Rollers

Arnott Handling Equipment Limited produces a range of high quality Mild Steel Gravity Conveyor Rollers to meet the most demanding applications. A wide range of roller diameters, shaft sizes and tube materials are available. Please see chart. Rollers are made to suit customer's precise requirements and comply with British Standard 2567. All steel rollers are bright zinc plated as standard.

As standard all rollers are provided with a spring loaded spindle and a 15 mm Shaft extension both sides of the roller. We also offer the following alternatives:-

- Drilled and tapped ends female or male threaded ends
- Ends drilled for wire
- Fixed or loose shaft
