## Plastic Gravity Rollers

Our range of Rigid ABS food quality plastic gravity rollers has been developed to suit a variety of applications and industries.

- Rollers available in 20, 25, 30, 40, 50 and 60 mm diameter
- Option of Grey, Blue, Black or White tube on 50 mm diameter.
- Rigid ABS tube
- Acetal end bearings with stainless steel balls
- Easy to remove / replace
- Corrosion resistant

As standard all rollers are provided with a spring loaded spindle and a 15 mm Shaft extension both sides of the roller. We also offer the following alternatives:-

- Drilled and tapped ends
- Threaded ends
- Ends drilled for wire
- Fixed shaft
- Loose shaft

| Type  | Roller Dia D | Spindle Dia d | Bearing proj B | Spindle Ext. E | Length over Bearing L1 | Spindle Length L2 | Inside frame L3 |
|-------|--------------|---------------|----------------|----------------|------------------------|-------------------|-----------------|
| AR 20 | 20           | 6             | 10             | 15             | L + 20                 | L + 50            | L + 2           |
| AR 25 | 25           | 6/8           | 3              | 15             | L + 6                  | L + 36            | L + 2           |
| AR 30 | 30           | 8/10          | 2              | 15             | L + 4                  | L + 34            | L + 2           |
| AR 40 | 40           | 10            | 8              | 15             | L + 16                 | L + 46            | L + 2           |
| AR 50 | 50           | 8/10          | 8.5            | 15             | L + 17                 | L + 47            | L + 2           |
| AR 60 | 60           | 10            | 10             | 15             | L + 20                 | L + 50            | L + 2           |
